SCANAVO LIGHT & ULTRA LIGHT

The conspicuous appearance reflects the level of innovation shown in Scanavo's new "Light of Day". In the development of this case emphasis was given to functionality and elegant light appearance.

 **SCANAVO**
WE CARE FOR YOUR FINE PRODUCTS

SCANAVO LIGHT & ULTRA LIGHT

The concept is characterised by its additional degree of flexibility in utilisation of merchandising space.

Featuring the following highlights:

- **Scanavo Light™ & Scanavo Ultra Light™** in half the thickness of a standard DVD case.
- **Scanavo Light™** has an outside cover sleeve and is available in super transparent and solid colours.
- **Scanavo Ultra Light™** is without cover sleeve and is available in super transparent colour. Ultra Light saves you the cost of cover sheets and provides merchandising space from inside out – similar to the CD Jewel case concept.
- **Full automation capability** already available from the major packaging machine companies.
- **High cost efficiency** in terms of 50% reduction in warehousing space, transport costs and shelf space.
- Suitable for all digital disc formats. Case and hub are designed to respect sensitive DVDs and the design ensures safe disc protection and transportation.
- We recommend our new concept for promotional mailings, recordable and rewritable formats, impulse buying products, budget titles, rental business or new packaging concept for any media release in mention.
- **PA DK 2003 00070 / US 6, 478, 150 B I**
